

Jonathan Dambrot

Jonathan is the CEO and co-founder of Cranium AI, Inc., the leading AI security and trust platform that spun out of the KPMG Studio in April 2023. With over 20 years of experience in information technology, cyber security, and third party risk management, he is a visionary and industry leader who drives confidence and trust in the use of secure artificial intelligence.

Prior to Cranium AI, Jonathan was a partner at KPMG, where he developed solutions for clients focused on the future of cyber and third party risk management. He also incubated Cranium AI inside KPMG Studio's incubator and successfully spun the business out in March 2023. Before KPMG, he led Prevalent to become a Gartner and Forrester industry leader in third

party risk management before its sale to Insight Venture Partners in late 2016. Jonathan is a Certified Information Systems Security Professional (CISSP) and Certified Third Party Risk Professional (CTPRP). He is also a magician and a Penn State MBA graduate who loves to perform for his kids, co-workers, clients, and friends.
